

# PLM REFERENCES

## Bühler I 2003-2009

### ■ Project information

- Definition of a global “Product Data Backbone” for the integration of the wide spread sites
- UG / SAP within Die Casting Development
- Replacement of MDT by UG in GP / EP Development / AutoCAD-INVENTOR

### ■ Services Intelliact AG

- Documentation of the existing processes and systems (2003)
- Identification of the requirements for a central “Product Data Backbone”
- Development of feasible PLM architectures (2004)
- Concept for UG-SAP implementation (2005)
- Project lead UG – SAP implementation (2006-2009)
- Product structure guidelines (2008-2009)
- INVENTOR/SmarterTeam roll out preparation (400 users, 4 sites) (2008-2009)

### ■ Involved partners

- UGS
- SAP / ProNovia
- Bentley
- Autodesk

### About the client

- Grain Processing
- Die Casting Machines
- Engineered Products
- 10,600 employees
- 2,322 Mio. CHF revenue (2013)

# PLM REFERENCES

## Bühler II 2009-2014

### ■ Project information

- Evaluation and introduction of global PLM solution
- Unique source of truth for all product master data

### ■ Services Intelliact AG

- Acquisition, planning and scoping of business requirements for a global PDM solution (2011)
- Evaluation of system-independent overall cooperate architectures for a global solution (2011)
- Benchmark of product and partner based on essential use cases (2011)
- Benchmark of product based on usability (efficiency tests) (2011)
- Final decision on product and partner (2012)
- Internal cost-benefit identification for investment decision by executive board and business units (2012)
- Concept and pilot implementation (2013)

### ■ Involved partners

- PTC
- Autodesk

### About the client

- Grain Processing
- Die Casting Machines
- Engineered Products
- 10,600 employees
- 2,322 Mio. CHF revenue (2013)
